

# IACMobile™

## When and Where You Need It

Since 1993, IACT has been introducing innovative technology to help busy orthodontic practices like yours break the patient communication barrier. No surprise—we're doing it again. Designed for the orthodontist that travels to one or more satellite offices, IACMobile makes it possible for you to use *CasePresenter* and *PatientTrainer* when and where you need them without purchasing an additional license for each and every office.

## The Affordable Way to Travel

That's right. Unlike other companies, we don't require you buy a Satellite License for each and every office. If your success involves traveling to see patients in multiple places, we're here to make it easy and affordable. For one low monthly fee, IACMobile allows you to "float" your existing software license to an unlimited number of locations. That means if you own a Multi-User License to *CasePresenter* and/or *PatientTrainer* for your primary office, you'll also have Multi-User privileges at all your non-concurrent satellite locations—with nothing else to buy.

The service also includes offsite backups of your Custom Data and ensures each office always has the latest software updates and customized data. It's the ultimate in convenience *and* its completely affordable.

## No Hassles

And you can forget the hassle of carrying a laptop or license key. You can launch the IACT program from any personal computer with an Internet connection, and the intelligent technology communicates seamlessly

with the IACT Web Host. Provided your license isn't in use elsewhere, you'll gain instant access.

**Unlike other companies, IACT doesn't require you buy a Satellite License for each and every office.**

## Key Benefits

- Convenient
- Affordable
- Immediate return on investment
- Peace of mind

## Satisfaction Guaranteed

We're so confident in the value of IACMobile service, we're inviting you to start the subscription with no obligation. Take up to 90 days to decide. If you don't see value, just let us know and walk away.

To learn more about how your practice can recognize a rapid ROI with IACMobile or other IACT products including *CasePresenter*, *PatientTrainer* and *WebPresenter™*, contact us today at 877.422.8669 (Internationally dial 001-205-879-5251), Extension 6, or visit us online at [www.iactnow.com](http://www.iactnow.com).
